

(a) order is formation-invariant:
 $1.9992678569 \pm 1.2\text{e-}14$

(b) uniform $O(\tau^3)$ remainder, 220 draws

(c) C15: zero-commutator pairs have
 $C_i = C_j$ — the level-set class

(d) coefficient ratio $\rightarrow 1$ as $\tau \rightarrow 0$
 (60 draws; 5-95% band)
